XEROX PAGEPACK

CCM offers Xerox PagePack pricing which includes service (at DIS service levels) and all consumables (less paper) including toner, maintenance kits, and staples. The customer is charged a base monthly fee plus a "per-copy" overage for prints above the included mono or color prints. This program requires a small application to be loaded on one system for monitoring of print usage. The application also enables the end-user to easily order additional supplies as needed.

	Monochrome		Color		DIS Pricing	
	Mono Prints Included	Overage Price (cost per print)	Color Prints Included	Overage Price (cost per print)	8 Hour Restore	16 Hour Restore
